Dear President of Utah Disaster Kleenup,

January 4, 2019

I would be entirely ungrateful if I didn't express my sincere appreciation for your company today. I am a Realtor in Salt Lake, and I had a home that was for sale. To make a long story short, the home needed to be empty by a certain time period or the sale was on the brink of not going through. This was for a 93 year old man and his daughter. They are some of the sweetest people ever, and just needed this miracle of a sale to occur. Moving out items of the home, got far beyond us, and it was looking like we were not going to meet the deadline and the sale would not happen – truly.

There was so much to get out, and I was stuck in a “disaster.”

I was exhausted and, in my desperation, somehow I thought to call you folks.

I believe it was either a Mandy or a Lisa (or a Kathy) that answered. – I forget –

I am getting chocked up - But I think this woman sensed my desperation. I told her what these people could afford, and what was needed. She sent two young men to this home on 5800 South and Wasatch Boulevard, and these men pummeled through all this garbage throwing things away, so we would have the place clean and meet our contractual obligations.

When I called you folks, it would have been so easy assessing my situation, and saying - “that isn't our specialty- let me give you a number to another place.” - But you folks didn't - There was an approach of saying, “What reasonably *can* we do to help.” - And then you offered what you had and could.

I will forever remember this –

For your help and caring approach.

I can't pay you back for what you folks did for me and these sellers. But I just had to let you know what you folks did for us, and how grateful I am to you.

With appreciation,

Wes Brewer
